SUMMARY

Seeking to leverage and utilize my web development skill to create dynamic and fully responsive web applications, increase efficiency by facilitating user-experience and minimize development cost. Driven to learn and work hard to exhibit a solid understanding in the **software development** industry. As of March 5, I will be available for full-time employment.

ACTIVITIES

Snap it! Iphone Case | Full-stack E-commerce Shop

Link: <https://snap-it.vercel.app/>

- Developed fully responsive and dynamic UI with React components and styled with Tailwind CSS
- Created api end-points for CRUD operation and managed MongoDB database with Mongoose
- Integrated Paypal as a payment method, Redux for state management and JWT for admin authentication
